DETAILED ACTION

Information Disclosure Statement

1. The listing of references in the specification is not a proper information disclosure statement. 37 CFR 1.98(b) requires a list of all patents, publications, or other information submitted for consideration by the Office, and MPEP § 609.04(a) states, "the list may not be incorporated into the specification but must be submitted in a separate paper." Therefore, unless the references have been cited by the examiner on form PTO-892, they have not been considered.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claim 12 is rejected under 35 U.S.C. 102(b) as being anticipated by Johansson et al. [6,502,774], herein after Johansson.

Johansson discloses in Figs 1-14, a refiner disk for a rotary disk refiner comprising: a plurality of refiner disk segments [Fig 2] that each have a refining surface defined by a plurality of refiner bars 70 and grooves 72 and a backside; at least one sensor assembly 82 disposed in a pocket [Fig 5] in the refining surface of one of the refiner disk segments and having a plurality of sensor wires extending therefrom; a sensor carrier [conduit 118], a sensor connector [conditioner 206] having an electrical connector [col 15 lines 31-52] and a conduit arrangement [link 208] that releasably

coupled with the electrical connector [via the wireless connection between the conditioner 206 and link 208.

Allowable Subject Matter

4. Claims 1-11 are allowed.
5. Claims 13-20 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.
